

Leave Ordinary Behind

2022 OUTLANDER

ADVENTURE BUILT FOR YOUR FAMILY

The completely redesigned Outlander is engineered to tackle your family's ambitions with confidence. The wide and stable posture, muscular fenders, available 20" Machined Alloy Wheels and horizontally-sculpted body leave an elegant and dignified impression that ensures you'll stand out in every crowd.

The high-positioning of the streamlined front combination lamps ensure others see you; while the low-positioned LED headlamps, with available LED Fog Lamps and Auto LED High Beams, provide enhanced lighting to illuminate the road ahead.

The available extra large panoramic sunroof offers all passengers a sense of openness and connection with the world.

The available foot-activated, handsfree Power Liftgate is height adjustable, allowing for convenient and easy access to the up to 2,257 L (79.7 cu.ft.) of spacious cargo area, without having to put anything down.

REFINEMENT IN EVERY DETAIL

Innovative and purposeful technologies, rich materials and exquisite craftsmanship abound to make the Outlander your personal oasis on the road. With seating for up-to 7 passengers, Heated Front Seats, available Heated 2nd Row Seats, Heated Steering Wheel, Triple-Zone Automatic Climate Control and Pull Up Rear Door Sunshades, every journey will be comfortable and entertaining for the whole family.

The available Triple-Zone Automatic Climate Control system provides personalized comfort for the driver, front passenger, and rear seat passengers.

To help you stay alert and focussed on your driving, the available 12.3" full digital driver display provides customizable information including speed, navigation, safety data, S-AWC settings, windshield wiper settings and more.

The 40-20-40 split 2nd Row Seats and 50-50 3rd Row Seats provide flexible arrangements including comfortable seating for 4 occupants with longer cargo items.

Just like a jet-fighter cockpit, the available 10.8" Head-Up Display projects important driving information on the windshield so you can keep your eyes on the road ahead.

DRIVE WITH CONFIDENCE

The Outlander features a responsive, smooth and powerful performance to suit any lifestyle. The 2.5L 4-Cylinder engine is partnered with a Continuously Variable Transmission (CVT) and numerous other engineering innovations like an Active Grille Shutter to deliver a highly efficient 181-hp, and the ability to tow up to 907 kg (2000 lbs.).*

Towing has never been safer or easier! The standard Trailer Stability Assist system continuously monitors trailer sway, applying individual wheel brakes to help keep it in-line.

Tackling the roads less travelled has never been easier, as Mitsubishi Motors' legendary Super All-Wheel Control (S-AWC) is standard with every Outlander. The convenient dial selector that allows you to access six driver modes, provides superior control in every situation:

ECO automatically transfers torque to the rear wheels when loss of traction is detected, to enhance stability beyond the typical 2-Wheel Drive fuel-efficient drive mode

SNOW provides improved traction and stability specifically for light-to-medium snow-covered or slippery roads

NORMAL offers well-balanced 4-wheel drive dynamics, resulting in enhanced fuel efficiency, traction, high-speed stability and predictable handling

MUD enhances performance when driving through muddy or deep snow conditions, especially when accelerating and/or turning from a stopped position

TARMAC provides enhanced agility and heightened performance when travelling on dry, paved roads

GRAVEL delivers maximum traction on coarser roads or whenever you might find yourself stuck in a rough patch of off-road terrain

MITSUBISHI CONNECT⁺

The Outlander comes equipped with a host of innovative technologies for enhanced safety and connectivity. Use your Smartphone to start your Outlander to pre-heat or pre-cool the cabin; lock or unlock your doors; find your vehicle in a parking lot; or check your vehicle's condition, fuel information and warnings – anytime and anywhere.

Connect with the Mitsubishi Motors call centre instantly in emergency situations – automatically when in a collision, or by pressing the SOS button; or arrange for Roadside Assistance when you need it. No matter the situation – the Outlander has got you covered!

CONNECT TO A NEW WORLD

Purposefully designed to complement the interior atmosphere, the available large 9" Smartphone Link Display Audio System features all the latest innovations in infotainment connectivity, including Bluetooth®, SiriusXM® Satellite Radio with 3 months of complimentary service, Android Auto™¹, and wireless Apple CarPlay². Never get lost again with the available factory-installed embedded Navigation, powered by TomTom.

TOMTOM

The available BOSE premium audio system has been calibrated specifically for the Outlander with 10 high-quality speakers including a dual subwoofer, resulting in a concert-like premium sound quality the whole family will enjoy.

Located conveniently in the centre console, the available Smartphone Wireless Charger accommodates larger smartphones so they stay put while charging.

KEEP YOUR FAMILY SAFE

With numerous standard safety innovations, including 11 SRS airbags and RISE Body Construction, the Outlander provides top-class safety and protection for you and your family. What's more, Outlander is packed with a ton of advanced driver assistance systems, including the available MI-PILOT Assist, which in combination with Autonomous driving features helps keep the vehicle centered in the lane of travel and works to reduce fatigue on long trips:

Forward Collision Mitigation (FCM)[†]

Utilizes both laser radar and camera technology to determine if a frontal collision is imminent. If so, it warns you with audible and visual signals, and automatically applies moderate to emergency braking to reduce the severity of the collision and, if possible, prevent the collision altogether.

Rear Automatic Emergency Braking[†]

Uses sonar installed in the rear bumper to detect an obstacle when in reverse, issuing a warning and applying brakes when necessary to help avoid potential collisions.

Blind Spot Warning (BSW)[†]

Alerts you when a vehicle is in or approaching your blind spot. When a vehicle in the next lane is travelling at the same speed or faster in the detection areas, a warning light illuminates on the corresponding side mirror. If you switch the turn signal on, the warning light on the corresponding mirror will blink and the system will beep three times to alert you that it is unsafe to change lanes.

Rear Cross Traffic Alert (RCTA)[†]

Detects a vehicle approaching from the side while you're backing up. It alerts you with flashing warning lights on both side mirrors, a buzzer that sounds in the cabin and a warning message that appears in the instrument cluster.

Lane Departure Warning (LDW)[†]

Uses an onboard camera to monitor lane position in front of the vehicle, providing visual alerts along with steering wheel vibration (haptic feedback) if it detects your vehicle leaving the lane unintentionally.

Driver Attention Alert (DAA)[†]

Issues a warning message to alert you of potential fatigue and lack of concentration by analyzing steering input.

DEPENDABILITY YOU CAN COUNT ON

AT MITSUBISHI MOTORS, WE'RE SO CONFIDENT IN THE QUALITY, RELIABILITY AND DURABILITY OF THE VEHICLES WE BUILD, THAT WE BACK THEM WITH SOME OF THE MOST COMPREHENSIVE WARRANTIES AVAILABLE.

Multi-View Camera System (MVCS)¹

Series of cameras create a birds-eye view of the surroundings, and a wide-angle view which results in increased convenience and safety when reversing. The Moving Object Detection (MOD) feature helps to quickly identify pedestrians and other moving objects by placing yellow frames around them.

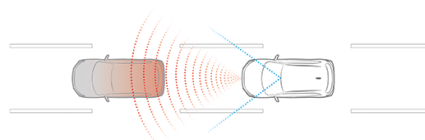

Active Blind Spot Assist (ABSA)¹

Automatically applies brakes, following a warning, to support steering operation and avoid lane change collisions when another vehicle is detected in the next lane.

Lane Departure Prevention (LDP)¹

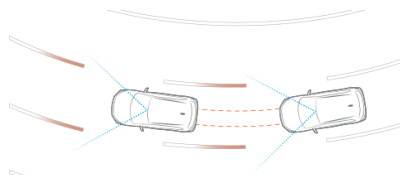

Uses an onboard camera to detect the driving lane. When the vehicle departs from the driving lane accidentally, individual wheel brake control is activated to help return your vehicle to the original lane.

MI-PILOT Assist

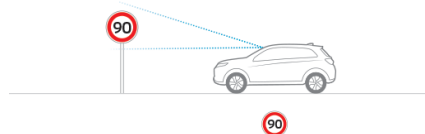

Adaptive Cruise Control (ACC) with Stop & Go¹

Uses radar to automatically adjust the vehicle's cruising speed to maintain a set distance between you and the vehicle in front, even during stop and go conditions.

Lane Keep Assist (LKA)¹

When Adaptive Cruise Control (ACC) is active, the system uses an onboard camera to monitor lane markings, engaging active steering control to help keep the vehicle in the centre of the lane.

Traffic Sign Recognition (TSR)¹

Uses an onboard camera to detect speed limit and other traffic signs, displaying them on the multi-information display.

ES S-AWC / STANDARD SPECIFICATIONS:

- 2.5 L DOHC 4-CYLINDER DIRECT INJECTION ENGINE
- CONTINUOUSLY VARIABLE TRANSMISSION (CVT)
- SUPER ALL-WHEEL CONTROL (S-AWC) WITH DRIVE MODE SELECTOR (ECO/NORMAL/SNOW/GRAVEL/TARMAC/MUD)
- 7 PASSENGER SEATING
- HEATED FRONT SEATS
- 8" SMARTPHONE LINK DISPLAY AUDIO FEATURING ANDROID AUTO™ AND APPLE CARPLAY
- BLIND SPOT WARNING (BSW)
- FORWARD COLLISION MITIGATION (FCM)
- REAR AUTOMATIC EMERGENCY BRAKING
- LANE DEPARTURE WARNING (LDW)
- REAR CROSS TRAFFIC ALERT (RCTA)
- DRIVER ATTENTION ALERT (DAA)
- AUTO-ON & OFF LED HEADLAMPS
- 11 SRS AIRBAGS
- TPMS WITH TIRE PRESSURE ADJUSTMENT ASSIST
- HEADLAMP WASHERS

SE S-AWC / INCLUDES ALL THE EQUIPMENT OF THE ES S-AWC PLUS:

- HEATED STEERING WHEEL
- POWER PANORAMIC GLASS SUNROOF
- POWER LIFTGATE WITH HANDSFREE FUNCTION
- FAST-KEY KEYLESS ENTRY
- TRIPLE-ZONE AUTOMATIC CLIMATE CONTROL
- SMARTPHONE WIRELESS CHARGER
- AUTO LED HIGH BEAMS (AHB)
- LED FOG LAMPS

MOST POPULAR**LE S-AWC / INCLUDES ALL THE EQUIPMENT OF THE SE S-AWC PLUS:**
